

Change Summary

- Project: codexa
- Worktree: /path/to/codexa-worktree
- Branch: codex/general/codexa-20260622-144621-focus-orientation
- Base: main
- Primary commit: eb612e4
- Subject: fix(mcp): route workspace default before active rows
- Status: ready for PR after local and live-path verification

Changed Files

eb612e4 fix(mcp): route workspace default before active rows

```
src/mcp-repo-root.ts      | 27 ++++++-----
tests/cli-hooks.test.ts   | 30 ++++++-----
tests/mcp.test.ts         | 18 ++++++-----
3 files changed, 62 insertions(+), 13 deletions(-)
```

Verification

- npm run test -- tests/mcp.test.ts tests/cli-hooks.test.ts tests/init.test.ts: passed, 110 tests
- npm run check: passed, including typecheck, lint, privacy, Claude integration smoke, and 364 Vitest tests
- node dist/cli.js doctor /srv --mcp-readiness --json: passed; /srv resolves to the focused Codexa worktree with mcp-routing: ok
- node dist/cli.js session-context /srv --task "verify patched /srv focus routing" --limit 3 --budget 1500: passed
- git diff --check: passed
- Codexa change-plan snapshot mcp-srv-routing-post-main-20260623: saved
- Codexa post-edit-review for mcp-srv-routing-post-main-20260623: passed with Verdict: continue
- Codexa test-plan: reviewed; focused tests and full npm run check cover recommended affected suites

Notes

This fixes the ambiguous shared /srv board path by treating the workspace default as the unscoped focus before considering active session rows. Defaults that point at the configured root itself are still deferred behind active rows, preserving the previous fallback behavior for root-only defaults.

The reproduced live path now resolves /srv through /srv/.codex/WORKING.md to the focused Codexa worktree instead of reporting multiple active repos as ambiguous.
