

Codexa 0.7.2 Release Summary

- Project: codexa
- Release PR: 84
- Release version: 0.7.2
- Base: main
- Release branch: release-please--branches--main--components--codexa
- Subject: chore(main): release 0.7.2

Changed Files

- .release-please-manifest.json
- CHANGELOG.md
- package.json
- package-lock.json
- server.json
- integrations/.claude-plugin/marketplace.json
- integrations/claude-code/.claude-plugin/plugin.json
- plugins/codexa/.codex-plugin/plugin.json
- docs/pr-summaries/codexa-release-0.7.2/summary.md
- docs/pr-summaries/codexa-release-0.7.2/summary.pdf

Verification

- Release path verifier: passed.
- Public hygiene verifier: passed.
- Registry preflight: @mirnoorata/codexa@0.7.2 was not published before the release PR merge.
- GitHub PR checks before artifact commit: check, package-smoke, and benchmark passed.
- Final local and GitHub gates must pass again after this artifact commit before merge.

Notes

This release publishes the merged fix for workspace-root Codexa MCP routing so unscoped workspace launches use the explicit Workspace Default repo instead of stale session pins.
