

Change Summary

- Project: codexa
- Worktree: isolated fresh Codexa worktree
- Branch: codex/general/codexa-codexa-complexity-hardening-20260621
- Base: main
- Primary commit: ed08f30
- Subject: fix(types): align post-edit changed entries contract

Changed Files

ed08f30 fix(types): align post-edit changed entries contract
src/types.ts | 2 +-
1 file changed, 1 insertion(+), 1 deletion(-)

Verification

- git diff --check: passed
- npm run check: passed
- Codexa not wired: no .codex/config.toml
- git diff --cached --check: passed
- staged safety scan: passed

Notes

Hardening follow-up for the Codexa complexity-review lane. The source change aligns the exported PostEditReviewData contract with the structured ChangedFileEntry[] payload already produced and compacted at runtime.
